Speech by Shailesh Garg, National Chairperson, Environment Forest Climate Change Commission (EFCCC)

Dear Members, Volunteers, State Presidents, District Presidents, and Supporters of EFCCC,

I would like to express my heartfelt gratitude to every member of the Environment Forest Climate Change Commission (EFCCC) for the trust and confidence you have placed in me by appointing me as the National Chairperson.

This position is not merely an honor for me; it is a great responsibility. I accept this responsibility with humility and a firm commitment to serve our nation and our environment.

India is facing serious environmental challenges, including pollution, climate change, deforestation, and the increasing health risks associated with environmental degradation. It is our collective duty to address these challenges and create a healthier future for coming generations.

My vision is to strengthen the mission of EFCCC and take the work of environmental awareness, tree plantation, water conservation, waste management, and pollution control to every corner of the country. Together, we can inspire millions of citizens to become active guardians of nature.

I firmly believe that a cleaner environment leads to a healthier society. Our dream is to contribute towards building a Cancer-Free India by promoting clean air, pure water, healthy food, and a pollution-free environment. This mission cannot be achieved by one person alone—it requires the support and dedication of every member of the EFCCC family.

I sincerely thank all the members, office bearers, and volunteers for their continuous support. Let us work together with unity, dedication, and determination to create a greener, cleaner, and healthier India.

The journey ahead is challenging, but with your support, we will take the Environment Forest Climate Change Commission to new heights and make a meaningful impact on the lives of millions.

Thank you once again for your trust and confidence.

Jai Hind!
Jai Bharat!
